Science for the Real-World

Marion Nestle: The Journey of One Woman in Science and Policy

Join us to discuss her new memoir *Slow Cooked*

Marion Nestle

Paulette Goddard Professor of Nutrition, Food Studies and Public Health,
Emerita at NYU

Marion Nestle will reflect on her late-in-life career as a world-renowned food politics expert, public health advocate, and a founder of the field of food studies after facing decades of low expectations.

She will highlight her upcoming memoir, *Slow Cooked*, that tells her personal story, including her astonishing rise from bench scientist to the pinnacles of academia, while overcoming the barriers and biases facing women of her generation and finding her life's purpose after age fifty.

Slow Cooked will be available for purchase during the reception.

Reflections on the Status of Women at UCSF by:

Catherine Reinis Lucey, MD, MACP
Executive Vice Dean and Vice Dean for Education
Professor of Medicine
UCSF School of Medicine
